

Environmental Policy

Borgarplast hf takes lead and contributes to a good environmental profile for Iceland.

Our aims is to:

- Run the company in harmony with the environment and the people who live in it.
- Minimize and classify the garbage of the company.
- Capacitate and train our staff in order to avoid mishaps and environmental accidents at work.
- Be able to assure our costumers that Borgarplast leads a good example and fulfills legislative and regulatory demands and principles relating to the environment.

Borgarplast hf aims to adhere to the ÍST EN ISO 14001:2004 Environmental Management Standard. The company works towards continual improvement as regards environmental issues and prevention of pollution and it will comply with applicable and valid environmental laws and regulation.
