

# Quality Management

Borgarplast hf aims to manufacture first class quality products and provide excellent service to its customers.

This will be accomplished by:

- Manufacturing and selling first class products.
- Making sure that the products are technically adequate, well designed and meet the requirements of our customers.
- Preserve the good reputation of the company.
- Meeting the requirements of the ÍST ISO 9001:2008 Quality Standard and supporting quality management principles in general.
- Adhering to appropriate legislative and regulatory demands and principles.
- Constantly working towards improvements of the products, methods and quality system.
